SCREEN CAPTURE INSTRUCTIONS:

Go to the screen you want to 'capture' and press ALT+PRINTSCREEN. Then open Word and press CTRL+V to 'dump' the image into the document. (The PRINTSCREEN key is usually on the top right hand side of your keyboard.) Softlink requests that you enter all screen captures into a single Word document.

BARCODE SCANNING INSTRUCTIONS:

Open the MS Word document in which you are saving the screen captures. Use a **barcode scanner** on the resource or student card to capture the barcode information in the MS Word document. Barcodes will appear as numeric or alphanumeric representations (2187143401 / TR0008587), not as actual barcodes.

- For resources, please enter the title of the resource next to each scanned barcode.
- For borrowers, please enter the borrower name next to each scanned barcode.

Do NOT use a photocopier/scanner to scan an image of the actual barcode.

If different barcode formats are used in the library, please provide examples of **ALL the different barcode formats**. Old and recent item barcodes should be included in the sample.
