# **Serials Solutions 360 Search**

360 Search is a third party federated search engine supplied by Serials Solutions, who provide full support, implementation and training services for their product. It is accessed via the **Other Searches** link in your Oliver OPAC and provides a single point from which to search multiple quality databases including your own OPAC, removing the need to search each library using its own interface.

Serials Solutions will provide you with details of their support centre, which is the contact point for any *360 Search* related questions, issues or training requirements.

### **Serials Solutions requirements**

Serials Solutions will require the following information:

Server Address Port Number Application Prefix Corporation Alias Client Alias Client Password

### Hosted Systems

The following information can be obtained from the URL to your Oliver system. Please note that if there is no Port Number then the default is 80.

### https://abc.softlinkhosting.com.au:8080 / oliver

### Port Number

If no Port Number is shown then the default is 80.

### **Corporation Alias**

This is supplied when your data is attached to your Oliver system, and is normally on your installation email. Please note that if for any reason your data is attached after your installation, you may be supplied with the corporation alias then. Alternatively see appendix A at the end of this document.

### **Client Alias**

Webservices (Already set within Oliver).

### **Client Password**

Edit the Webservices borrower and set the password to a value of your choice.

# Softlink

### Non Hosted Systems

These are exactly the same except the Server Address is the externally visible TCP/IP address or DNS of the server on which the Oliver application resides. e.g 192.132.68.72 or http://www.example.com.au

## **Configuring Oliver**

Softlink

The following parameters are set by navigating to **Management > Parameters** within the Oliver Management Interface

No.	Parameter	Value	0
7400	Show Federated Search Parameters	Yes	
7401	Federated Search URL	http://vn3q45mj8q.cs.serialssolutions.com	
7402	Federated Search Username	User1	
7403	Federated Search Password	hopscotch	

Serials Solutions will supply this information to you as all of these values depend on the 360 Search site that Serials Solutions configures for you.

Parameter **7404** can be left blank as the 360 Search icon is the default federated search icon.

### **Using 360 Search**

Softlink

360 Search is selected from the OPAC ...

... and will direct you to the website created for you by Serials Solutions.
